

std::true\_type

The diagram illustrates an inheritance relationship. A white box at the top represents the base class 'std::true\_type'. It has two empty rectangular slots below its name. A blue arrow points upwards from a gray box below to the bottom of the white box. The gray box represents the derived class 'cudf::is\_host\_span\_supported\_container' and contains the text 'cudf::is\_host\_span', '\_supported\_container', and '< std::vector< T, Alloc > >'. It also has two empty rectangular slots below its text.

cudf::is\_host\_span  
\_supported\_container  
< std::vector< T, Alloc > >
